

A (capo up 2)
I feel so helpless now,
my guitar is not around
E
And I'm strugglin with the xylophone
To make these feelin's sound
D
And I'm rememberin' you singin'
and bringin' you to life
A
It's rainin' out the window
E
and today it looks like night

A
You haven't written to me in a week,
I'm wonderin' why that is
E
Are you too nervous to be lovers
Friendship's ruined with just one kiss?
D
I watched you very closely,
I saw you look away
A
Your eyes are either gray or blue,
E
I'm never close enough to say

A
But your sweatshirt says it all,
with the hood over your face
E
I can't keep starin' at your mouth
Without wonderin' how it tastes
D
I'm with another boy
(he's asleep, I'm wide awake)
A
And he tried to win my heart
E
but it's taken; Time...

A
And I know the shape of your hands
because I watch 'em when you talk
E
And I know the shape of your body
'Cause I watch it when you walk
D
And I want to know it all
but I'm giving you the lead
A
So go on, go on and take it
E
Don't fake it, shake it

A
Don't second-guess your feelin's
You were right from the start
E
And I notice she's your lover
But she's nowhere near your heart
D
This city is for strangers
Like the sky is for the stars
A
But I think it's very dangerous
E
If we do not take whats ours

A
And I'm winnin' you with words
Because I have no other way
E
I want to look into your face
Without your eyes turnin' away
D
Last night I watched you sing
Because a person has to try
A
And I walked home in the rain
E
Because a person can not lie
